CATALOGUE
OF
STOVES AND
..RANGES

For Either Wood or Coal.

SUITABLE
FOR ALL PARTS OF THE
WORLD.

MANUFACTURED BY
ABENDROTH BROTHERS,
Nos. 109 AND 111 BEEKMAN STREET,
NEW YORK CITY, N. Y., U. S. A.

ESTABLISHED 1840

WE have the pleasure of presenting to our numerous friends and customers our

ILLUSTRATED CATALOGUE

in which will be found the most extensive and complete assortment of Stoves and Ranges ever placed upon the Market—the result of nearly seventy years' experience devoted to the manufacture of these most useful articles.

We ask from you a careful examination of the within patterns, confident that in them will be found the best proof of our determination to meet the needs of the Stove Trade throughout the world, and the desire to maintain our leading position among the Stove Founders of the United States.

All the goods illustrated and described in the following pages will always be kept in our warehouses in large stocks, and customers may be assured of having their orders filled promptly and carefully, and at the lowest market rates.

Particular attention will be given to OBTAINING FREIGHTS at the LOWEST RATES, and shipping by the MOST EXPEDITIOUS ROUTES.

For prices, terms or further information, address,

ABENDROTH BROTHERS,

109 & 111 Beekman Street

NOTICE

To avoid all errors as to the style of Stoves and Ranges required, it would be well, when ordering, to state the number of Catalogue and Page, and give the full name of the article desired. Also state whether required for coal or for wood.

INSTRUCTIONS AS TO ROUTE, &c.

Definite instructions as to Route, Risk, Insurance, &c., should be given with each order, otherwise we cannot be responsible. When no instructions are given, goods will be consigned in the way we consider most suitable.

SPECIAL NOTICE

We are not responsible for goods after having delivered them in good order and condition to Railroad or Boat in this city and taken the carrier's receipt showing the fact. Sometimes the carriers insist upon our signing a "release," having reference to their liability for damages, etc. In such cases, of course, we have to do so; but that does not in any way affect the right of the consignee (who is the real owner) to claim and recover damages for any carelessness or negligence on the part of the carrier.

It must, therefore, be clearly understood that after we have delivered goods to the carrier, properly consigned, the ownership has passed from us to the consignee, and that we, as shippers, have no claim against the carrying company.

We cannot accept the cancellation or countermanding of orders without our consent—more particularly in the case of goods that differ in any way from our regular stock goods.

No goods insured unless so ordered.

All freight secured at lowest rates.

STOVES FOR EXPORT

Our large experience in this line gives us special advantages. All Stoves for export require to be cased or crated. We give this special and careful attention, charging for crates or cases at cost only, and making them suitable for the voyage required.

N. B.—All orders for export should be placed through a reliable Commission House in the United States, or accompanied by a letter of credit of sufficient amount to cover the goods ordered.

UNCLE SAM 1876

For Coal or Wood

Above Cut shows Range with Plain Top.

Each Range Furnished with One Sectional Cover.
